- 4.) There has always been ET contact.
- 5.) Many types of ET are collaborating in Human evolution.
- 6.) UFO information is being drip fed into the public domain.
- 7.) UFO Information about UFOs is being distributed dualistically in the form of friend or foe hypothesis by way of movies, documentaries, internet, books and contactees.
- 8.) All government spokesmen have lied about the existence of UFOs.
- 9.) The ET races appear to have a spiritual and scientific interest in earth humans.
- 10.) Disinformation creates interest and inspires humans to seek their own truths.
- 11.) Some UFO researchers substitute "hypotheticals and assumptions" for facts. Contactee Peer review and confirmed scientific proof are often ignored in favor of profits.

- 12.)Some very bad ET races from Orion are on earth per solar treaty. These races place scientific knowledge above spiritual laws. They are morally compromised and seek to influence earth nations to adopt their scientific culture. They seek the conquest of earth culture by way of despotic means.
- 13.)It was the spiritual ET races in our distant past that taught humans the rudiments of Civilization.
- 14.)Certain ET interventions help to establish religious faiths by impersonating an antropomorchic god. They did this by providing miracles. Also, there have been many ET interventions in wars.
- 15.)Some North Central and South American cultures began as ET colonies.
- 16.)Many Developed nations and/or their militaries have treaties with the ET Races.
- 17.)Many Nations share their ET information with one another.

- 20.)Many militaries and/or their "Private Contractors" have murdered, imprisioned, or used patent law to ensnare UFO researchers and contactees around the world.
- 21.)These patents are systematically given to "private

vendors" who are protected under "national and international trade secret" laws and treaties.

- 22.)Most ufology research groups do not know that they are secretly "partially or fully" funded and manipulated by a military industrial complex.
- 23.)Most developed nations have learned that UFOs can easily destroy their weapons and there is nothing they can do about it but stand down.
- 24.)All nations have used the "Sworn to Secrecy" tool to cover up UFO information.

- 29.)The notion of "Friendnemies" holds that on certain common issues they cooperate. On other issues they oppose one another.
- 30.)The notion of "Friendnemies" has been in play between nations since the birth of mankind.
- 31.)The best way to think of "Friendnemies" is to use the symbol of a glass of water as being half full and half empty.

- 32.)The notion of "Friendnemies" is just one of the many paradoxical notions used in Occult Philosophy.
- 33.)There are as many different types of ET propulsion systems as there are stars in the sky.
- 34.)From the 1950s through the late 1970s most of the developed nations had made agreements with the ETs to allow their spacecraft to be shot down and reverse engineered by humans. On other occasions the ETs simply abandon their ships and allow the militaries to capture them in tact.
- 35.)The ET races only give humans ancient outdated spacecraft.
- 36.)Most nations slowdrip UFO information by way of their media.
- 37.)Major Motion Pictures, Books, Documentaries, News Stories and Lecture tours are meant to focus the public attention on UFOs so as to gain funding for Nasa and defense programs. Real information about the ET races are tightly controlled so as to manage the public's fight or flight response. These "off the books programs" are covertly managed to protect the current obsolete economic structure.
- 38.)As best I can tell, there seems to be two types of ET Civilizations:
- a.)Those that focus on the Spiritual development of a planet.
 - b.)Those that focus on the Scientific development of a planet.
- 39.)As best as I can tell "human warfare" had been the historical tool used by the two types of ET

Civilizations to develop earth's spiritual and scientific advancement.

Please note: the above statements are my personal evaluation of the ET question. Much more scientific verification is needed before we can claim any statements of truth. Please take my analysis with a grain of salt.
